

CHIPPED MULCH REQUEST

Chipped tree branches make great garden mulch. Not to be confused as compost, this is raw chipped wood and leaves fresh from a brush grinder of one or several species. Mulch is ideal to spread over bare soil and in informal beds to about 3 inches deep. It then moderates temperature, conserves water, reduces erosion, retards weeds and improves biology of the soil.

Not only is mulch *green* but this mulch is *free!*

To receive free mulch delivered to your property subject to the conditions below, please complete this form and return to our office.

Name _____ Business _____

Delivery Address _____ City _____

Email _____ Day Phone _____

I understand and accept all these conditions:

- A load size varies and may be up to 24 cubic yards in volume. This amount could cover 864 square feet 3 inches deep.
- We make no commitment that the load size or composition is suitable for your needs.
- The load is dumped in an area accessible to a medium duty truck and free of low overhead branches or wires. It cannot block any public access. Finch Tree does not move or distribute the load unless separately contracted to provide that service for a charge.
- Delivery dates are not promised in advance because availability is dependent upon nearby work in progress producing suitable material. Feel free to advise us here of any date limitations we should consider: _____
- **Once dumped, Finch Tree cannot remove the mulch.** We will honor your right to refuse a delivery upon personal inspection with the driver upon arrival and prior to unloading. Keep in mind you can only see a sampling of the entire load and that there is no assurance of uniformity in composition or type. If Finch Tree accidentally includes unchipped material over 2 inches in diameter or 3 feet long, we will remove that material without cost.
- Finch Tree will call before delivery and not deliver unless we reach you for concurrence; unless you authorize delivery without notice by checking here. initials _____
- If no one is present during delivery, we need a detailed sketch showing exactly where to unload. Be sure to indicate any hazards or concerns on the sketch. Use the reverse side or attach a second sheet.
- Finch Tree reserves the right to not unload for any reason upon arrival. The dump location could not be understood or an unexpected hazard may be of risk to either party.
